

## TUTORING PROGRAM:

Are you looking for part-time or full-time work? Would you love to be self-employed, be your own boss? Then our program will work for you.

### But I Don't Know Anything About Geography!

You don't need to be an expert in Geography. You do need to understand how our program works. The content will be your guide. Your job as a Tutor will be to **GUIDE YOUR STUDENTS** through our Introductory Course. The **TEACHING METHOD** is very strictly laid out and has been tested for its ability to help students learn quickly and efficiently. Your job will be to keep on track and facilitate their learning. If you can read, write and color, you can do this program! You are not expected to be an expert. If they ask you a question you don't know the answer, acknowledge the question and research it together. Geography is a subject that is always changing and growing. You are there to help them learn the way our program works.

### Is This Job Right For Me?

Yes! Our Tutoring Program is new! We are looking for the right people, people who want to empower others.

Are you a stay-at-home Mom, college or university student, homeschooler, retired senior, small business owner, travel agent, someone unable to find satisfying work, someone who is physically handicapped, someone already passionate about Geography, someone who is tired of their current job, someone who is tired of being in traffic ...?

How you run your tutoring business is up to you. Tutoring is flexible. You set your hours, you choose your clients, you set your fees, you choose where you work (your home, student's home, online through web based communication).

For more information about our Tutoring Program visit our website at [www.theglobeinanutshell.com](http://www.theglobeinanutshell.com) and click on 'Tutoring Program'.

## HOW DO I START MY BUSINESS?

Starting your business couldn't be easier. Once you register with the preliminary course, *The World and Its Physical Geography*, everything you need is online such as, the Introductory Course, *The World and Its Physical Geography*, Tutors' Manual, training material, Tutors' promotional material (brochure, business cards, advertising poster, stickers for your clients to put on calendars), online listing of 'Your Business' on The Globe in a Nutshell® website, and everything you need to know about the Referral Program.

The Referral Program will be the fuel to help your business grow quickly. By teaching your students about the Referral Program, they will bring people to you. Your business could mature exponentially in a very short time!

We will show you how you can receive \$400 CDN with your first client and all you paid is \$79 CDN to obtain all the above. Would you love to own your own business, pay off debts quicker, save for a vacation, have money to invest, work from home, or *all of these?*

Join The Globe in a Nutshell® program TODAY by registering online with our preliminary course, *The World and Its Physical Geography*! And, become a Tutor ...

**Experience, Expand, Explore!**

# The Globe in a Nutshell

**WE HELP EXPLORERS  
DISCOVER THE WORLD!**

The Globe in a Nutshell® takes keen adventurers on a voyage of discovery into the fascinating world of global geography. From the comfort of home, through online courses, practical assignments, and self-motivated learning, you will be inspired to expand on your knowledge of the world and all it has to offer.

## COURSES:

---

Your curriculum is organized into nine segments. The first, *The World and Its Physical Geography*, will teach explorers all about tectonic plates, continents, oceans, mountain ranges, rivers, seas, deserts, major lakes and much more, and is the prerequisite to the next eight REGIONAL INTEREST COURSES.

## PRELIMINARY COURSE:

---

- \* The World and Its Physical Geography

\* For New Adventurers: Please note that *The World and Its Physical Geography* is a preliminary course with this program and must be successfully completed prior to pursuing any of the following eight REGIONAL INTEREST COURSES.

## REGIONAL INTEREST COURSES:

---

- Canada – The Great White North!
- United States – The Land of Opportunity!
- Central America – Vibrant, Colorful, Exotic!
- South America – Jungles, Rainforest, Mysteries!
- Europe – The Old Country!
- Africa – Classroom Safari!
- Asia – and the Ancient Orient!
- Australia & Oceania – from Shipwreck Coast to the Arid Outback!

**Experience, Expand, Explore!**

## COURSE MATERIALS:

---

Each course participant will access their Member's Page through The Globe in a Nutshell® website to download their Travel Diary with course outline, assignments, blank outline maps, graphic maps, travel logs and other materials of interest. In addition, members are required to own a globe, atlas, and colored pencils.

With The Globe in a Nutshell®, you will discover our home, planet Earth, from crust to core, to the great depths of the oceans floor, from rushing rivers, majestic mountains, to landform regions and drainage basins which have influenced many civilizations. You will be amazed by the world at your fingertips.

The Globe in a Nutshell® is fun, ideal for families and relevant to your life and times. Here is why ...

## WHY GEOGRAPHY?

---

The world around us is shrinking. The need to understand what is happening across the globe is becoming more important. Through advances in telecommunications and transportation we are quickly becoming a 'Global Village' with a 'Global Economy'. But, how much do most of us really know about the world we call Planet Earth? It is no longer enough to just have a general understanding of our own little part of the planet. We need to learn more about people and places, both near and far.

Our series of courses help our Members to do just that. After taking our introductory course, *The World and Its Physical Geography*, you will be well on your way to putting world events into context. You will know where places are in relation to where you are. You will know a bit about each physical region and understand how it fits into the whole. Then, with our eight Regional Interest Courses you will be able to delve deeper into these areas and learn about how they are special.

## TO REGISTER:

---

Our preliminary course, *The World and Its Physical Geography*, is

**\$99** CDN  
+ tax
